

OBAC Policy information for On-Line Class Attendance

“Online instruction cannot replace the hands-on experience from in person classes, and students should seek out extra support from an instructor or their advisor as needed.”

All Online classes require real-time instructor interaction and are to be documented as "Online" on certificates and on the program record form.

Number of on-line classes Accepted: each class will be accepted only once to either of the OBAC training programs levels (Practitioner or Advanced Practitioner) For example: If you attend an on-line platform for the Demonstration Skills, Elements of Successful Practice, Practitioner Training Seminar or Ethics and Emotions in the Practitioner level then in the Advanced Practitioner level you must attend the class in person as the peer learning is essential.

Signing documents: Signatures won't be obtainable for the PT program papers, but a student can write in the name of the instructor and note that it was a virtual class and include a copy of the certificate of completion with their paperwork.
